Digital Duplication Solutions from Telex

Telex® SpinWise™ CD Towers

It has never been easier to duplicate CDs on your own. Control your own projects, your costs and your message by duplicating with Telex® SpinWise™ CD towers and rackmounts. Think of the possibilities:

- Training materials for new products and software upgrades to give your employees the knowledge they need to be successful.
- Curriculum, homework and tutoring aids to help parents stay involved and increase student performance.
- Weekly sermons to keep in touch with your congregation.

We offer a complete line of CD-R duplicators to meet your specific project needs. Customers that duplicate hundreds of CDs in a single project find the Telex® SpinWise™ 7-52H the most efficient duplicator. USB II ports allow you to plug right into your computer, making it even faster and easier to duplicate a project right from your PC.

Duplication Space Saver

Telex® SpinWise™ CD Rackmounts

Designed with rackmount configuration to help conserve space while providing powerful duplication capabilities, the Telex® SpinWise™ CD Rackmount Duplicators provide a reliable means of duplicating your most important projects.

With 36 partitions, the Telex® SpinWise™ duplicators with hard drives can dramatically improve the efficiency and flexibility of media duplication. Each partition can act as a storage unit for one gigabyte of data. This gives you the ability to load 36 separate duplication jobs and output each separately.

Telex® SpinWise™ CD Rackmounts

5-52UR	301737

“Telex SpinWise is so easy to use, you don't even have to hit a start button. Just load the tower with CDs and a few minutes later they eject by themselves. For the money, I would definitely recommend it.”

Jayce Bosman, Glad Tidings Church, Spiritwind International
