e-Screen ETX-6500

- The ETX range displays offers razor sharp, high quality images in Full-HD and Ultra-HD
- The build-in Automatic Brightness Sensor guarantees an optimal picture under all light circumstances and significantly reduces energy consumption
- The anti-glare coated glass guarantees perfect readability and a comfortable touch experience
- The advanced infra-red touch screen technology uses infra-red sensors to detect the touch point. Any pointing device (finger, stylus, or any other pen-shaped object) can be used
- Multi-touch with up to 32 simultaneous touches for multi user requirements (Windows 7, 8, 8.1 and 10)
- Easy to set up, plug and play functionality for Windows
- The all metal housing with brushed aluminium front and rounded corners make the ETX screen the perfect solution for demanding environments such as schools
- Operate the screen even without connecting a PC. Legamaster ETX-series e-Screens have a build-in controller running Android 5.0 that allows for PC-less operation. You can run a wide variety of Android apps directly on the screen
- Easily operate and control the screen through the Touch On-Screen Display function. The most essential features can also be controlled with the control buttons on the left side of the screen
- A build-in router allows you to set up a wireless network around the screen, perfect for collaboration setups
